Purpose

The Chief Business Officials (CBO) training program aims produce qualified California school district CBOs. This one-year program provides classroom training that takes place in 10 sessions (Friday afternoon and evening, Saturday). Instructors are qualified and experienced CBOs, typically with 10 years or more of experience. This program is unique because of the following four major components:

- 1) Each participant is teamed with their own mentor
- 2) Participants are nominated and selection is competitive
- 3) Training involves hands-on experience
- 4) Tuition is at no cost to participants
(FCMAT underwrites the cost of this professional learning activity)

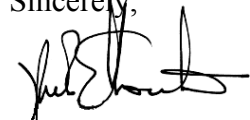

The CBO Mentor Program is a joint endeavor of FCMAT, SSC, CCSESA, BASC, and CASBO. It is our intent through interagency collaboration to help school districts throughout California fill CBO vacancies with qualified CBOs. We developed with CASBO a link to their CBO Certification program with the intent that a successful participant may receive CASBO CBO certification, depending on their mentor evaluation in coordination with CASBO's certification and approval process.

The program focuses on developing strong effective leadership skills. Participants will improve their understanding of fundamental issues that drive school business policies in each major functional area, including school finance, accounting, budgeting, facilities, maintenance and operations, transportation, contracts and procurement, risk management, food service, charter schools, and others. The curriculum is updated annually to reflect the current functions and responsibilities required of a district CBO.

We encourage applicants statewide to apply for this limited professional learning opportunity. A typical CBO Mentor cohort has 25 participants from all regions of California and with various backgrounds ranging from directors of business services to school principals to individuals in private industry seeking to transition into school business leadership positions.

As a mentor, your role is to support our future CBOs in their journey and share your wisdom and experience. FCMAT is pleased to present this professional learning activity in relationship with other professional trainings focusing on fiscal accountability.

Sincerely,

Joel Montero, Chief Executive Officer
Fiscal Crisis and Management Assistance Team
